Facials of the month

A-LIST GLOW

Resurface & hydrate. Skin will be left visibly re-invigorated and nourished

The ultimate cleanse combined with the TRI ACTIVE exfoliating mask to resurface with an optimal concentration of eco-friendly physical & chemical exfoliation.

Further resurfacing will be achieved using skin smoothing microdermabrasion; the perfect prep for your 10-minute Dermalux Light. Promote collagen production, increase hydration, improve pigmentation and any skin concerns such as acne or eczema.

A skin quenching and hydrating mask will follow along with IS Clinical advanced serums which will lighten, brighten and tighten the complexion to complete this super anti-ageing facial.

£60 • Course of 3 - £150

PERFECT NECK / PERFECT EYES

Strengthen and improve skin laxity & muscle definition of the Neck & Jowl or Eye area

The Advanced Genie will firstly give a muscle lift to the whole of the face, then Genies magical microcurrent probes will tackle specific areas of concern. Choose from either the Neck & Jowl or Eye area to increase definition and sculpt.

Radiofrequency will then be used to your chosen area to tighten and tone the skin whilst plumping out fine lines and wrinkles.

The application of IS Clinical Neck Perfect Complex or Youth Eye Complex will complete this results-based treatment delivering intense and penetrating hydration whilst tightening, sculpting and smoothing.

The skin will look immediately & visibly younger.
